-----

Boasting an impressive 90% Depth of Discharge, 215kWh battery in a single cabinet, our system employs pack-level energy optimization to provide you with a robust and dependable power ...

Designed for stable backup power and solar integration, it delivers reliable performance and measurable energy savings. The compact structure simplifies installation and commissioning, ...

The HJ-ESS-215A is a high-performance 100KW/215KWh outdoor cabinet energy storage system featuring fast power response, all-in-one design, intelligent monitoring, and six-layer security ...

It is suitable for microgrid scenarios such as small-scale commercial and industrial energy storage, photovoltaic diesel storage, and photovoltaic storage and charging.

Stars Series 215kWh Cabinet ESS is a smart, modular energy storage system for C& I and microgrid applications. It offers high safety with multi-level BMS and fire protection, efficient ...

The 215kWh commercial and industrial energy storage system consists of five 153.6V 43kWh battery modules connected in series. It features a modular rack design with a clear layout, ...

The Outdoor Cabinet ESS is an all-in-one energy storage system featuring a 215kWh capacity and 768V voltage. It combines battery modules, advanced cooling, fire safety, and real-time ...

As a complete Energy Storage System (ESS), this Battery Energy Storage Cabinet offers real-time peak shaving and valley filling, grid voltage regulation, three-phase imbalance ...

Jinko 215 Liquid-Cooled Integrated Cabinet integrates battery modules, BMS, PCS and fire protection equipment to offer a 1000V energy storage system solution for users. This system ...

The battery capacity is 215kW h, and the power is 100kW. The modular design is flexible for capacity expansion, and it is adapted to power capacity expansion, backup power ...
