---

215-255kW three-phase series string inverter have Maximum 28 strings input, support "Y" type connection in DC side. Maximum string input current 15 A, support bifacial modules access.

Solis" largest three-phase, 1500 VDC PV string inverter has 12 MPPT (250, 300 and 350) or 16 independent MPPTs (350K) options that allow for great redundancy in larger systems.

The new CPS 250 kW-600 V three-phase string inverters are designed for ground mount applications. The units are high performance, advanced, and reliable inverters designed ...

The 200 and 250 kW high power CPS three-phase string inverters are designed for ground mount applications. The units are high performance, advanced and reliable inverters designed ...

Sungrow SG250HX-V117, The 250kW three-phase Photovoltaic inverter consists of 12 MPPT and 24 inputs. Suitable for large PV systems.

Featuring smart string protection switch, the inverter can detect a short circuit or reverse connection, automatically turn off the switch to stop the corresponding MPPTs, and report the ...

For ground-mounted solar power plants, Delta has launched the M250HV high-capacity string inverter, which is equipped with 12 sets of MPP trackers with an output power of 250kW and ...

The SG250HX String Inverter, boasting a robust 250 kWp power, is a technologically advanced solution for solar energy conversion. It features 12 MPPTs ensuring maximum efficiency of ...

215-255kW three-phase series string inverter have Maximum 28 strings ...
