What are autarq solar roof tiles?

Roof tile and solar module in one. Autarq solar roof tiles are original roof tiles with integrated miniature solar modules. They are almost indistinguishable from regular roof tiles and blend seamlessly into the overall aesthetic of your roof. Gain freedom from electricity suppliers and soaring prices.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

Is solar tile a sustainable solution?

"The new solar tile means we can combine the best of both worlds: a typical clay tile roof and efficient energy generation using solar power. This is a sustainable solution that meets today's energy and sustainability needs and will continue to do so in the future", says Jacco Venema, New Business Manager at wienerberger Netherlands.

Design a detailed PV system for any location within the Netherlands and let the model calculate the performance and economics of this system. The ...
