What kind of batteries does saphiion offer?

Saphiion specializes in designing custom lithium-ion 18650 battery, 21700 battery and lifepo4 battery in various specifications, sizes, and shapes to meet your unique needs that vow your success! We offer a range of custom lithium battery packs, including lithium iron phosphate batteries for superior performance and safety.

What are sealed lead acid batteries (SLA batteries)?

Sealed lead acid batteries (SLA batteries) are available at low initial cost and are easy to maintain, making them ideal for a wide range of rechargeable battery applications.

What is licore portable battery analyzer?

LiCore Portable Battery Analyzer is available for customers to read battery information, troubleshoot, and update the battery's software and firmware. Information such as the voltage, number of packs in parallel, charge/discharge current, battery status, software version, cycle count, and real time data recording is available for users.

What is a lithium polymer rechargeable battery pack?

Lithium polymer rechargeable battery packs are available in different, custom-tailored configurations that can deliver longer run times or higher discharge rates. Cells as thin as a credit card are possible. Common applications include: Small one- or two-cell consumer electronics Industrial and many others

We provide custom-paired lithium battery chargers to enhance the performance and reliability of our battery packs. This is important ...

With over 20 years of experience, NPP Power specializes in custom lithium battery pack manufacturing. We provide tailored energy storage solutions that ensure efficiency, safety, and ...

Start your custom battery pack project today. Are you responsible for sourcing or developing battery solutions at an OEM and looking for a manufacturing partner?

Li-ion battery packs manufactured by Gushine are engineered for a wide range of applications, from handheld terminals and smart hardware to ...

We provide custom-paired lithium battery chargers to enhance the performance and reliability of our battery

packs. This is important especially when customers have unique charging ...

12V/24V/48V/51.2V rack mounted lithium iron phosphate battery, with high energy density, fashionable appearance, easy installation and expansion, is widely used in telecom base ...

Our team of experienced battery engineers will work closely with you to design and manufacture batteries that meet your specific voltage, capacity, and size requirements.

Start your custom battery pack project today. Are you responsible for sourcing or developing battery solutions at an OEM and looking for a ...

We offer custom housing solutions that ensure your battery pack fits perfectly within your device, with options for waterproofing, shock resistance, and temperature regulation.

Our team of experienced battery engineers will work closely with you to design and manufacture batteries that meet your specific voltage, ...

Our multi-protocol BMS provides 3-stage protection (voltage, temperature, current) and allows for real-time monitoring and adjustments. Our team provides free 3D design, custom BMS ...

Li-ion battery packs manufactured by Gushine are engineered for a wide range of applications, from handheld terminals and smart hardware to robotics and medical devices. As a full custom ...
