Honoured to join BESS 2025 in Astana - over 300 leaders gathered to shape Kazakhstan's energy future and launch the country's first pilot BESS project.

The proposed power station is near the Astana-1 power station and Astana-2 power station. Construction has been underway at the site for more than 10 years, originally as a coal plant ...

Aksa Enerji, the largest listed power producer in Turkey, has signed an agreement with the Kazakh government to build a combined-cycle gas power plant with a capacity of 500 MW, a ...

The power station, with a 300MW system, is claimed to be the largest compressed air energy storage power station in the world, with highest efficiency and lowest unit cost as well.

Nestled in Nur-Sultan (formerly Astana), Kazakhstan's capital, the Astana energy storage project sits at the crossroads of Europe and Asia. This 100 MW/200 MWh lithium-ion battery system ...

At the end of the session, it was emphasized that the construction of PSPPs in Kazakhstan will become a key element of the energy transition, ensuring the stability of the ...

The Investment Committee of the Ministry of Foreign Affairs of the Republic of Kazakhstan, together with JSC "NC Kazakh Invest," held an acceleration session dedicated to ...

Below is a list of the top 20 operational electrochemical energy storage projects worldwide, ranked by their energy storage capacity in megawatt-hours (MWh), showcasing the ...

By implementing smart energy storage, Astana businesses aren't just cutting costs - they're powering Kazakhstan's transition to a sustainable energy future. The question isn't whether to ...

The Astana Energy Storage Power Station Project isn't just about megawatts; it's a blueprint for sustainable industrialization. By marrying robust battery tech with smart grid protocols, ...
