Ever wondered how cities like Berne plan to keep lights on during winter peaks while phasing out fossil fuels? Enter the Berne Electrochemical Energy Storage Project - a game ...

KonkaEnergy Cabinets & Racks Collection - Engineered for secure and efficient energy storage, our battery cabinets and racks provide robust solutions for commercial and industrial applications.

We are the leading developer of community-scale battery energy storage systems (BESS) in the New York City metropolitan area.

Application areas: It can be applied to load peak shaving, peak-valley arbitrage, backup power supply, peak load regulation, frequency regulation and microgrids. The system has two ...

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

We are committed to supporting distributed generation projects within our service area. Whether you are a customer considering distributed generation or you are an experienced contractor, ...

That's essentially what the Berne Integrated Energy Storage Project aims to achieve - but instead of chewing through AA batteries like your TV remote, we're talking about ...

The cabinet provides a centralized and secure storage solution for energy storage components. Properly connect the components to the electrical system for seamless energy management.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, ...

Energy Storage Is Powering New York's Clean Energy TransitionEnergy Storage SafetyAn Expanded Goal of 6 Gigawatts by 2030In 2019, New York passed the nation-leading Climate Leadership and Community Protection Act (Climate Act), which codified some of the most aggressive energy and climate goals in the country, including 1,500 MW of energy storage by 2025 and 3,000 MW by 2030. In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030. St...See more on nysersda.ny.gov.
