---

A capacitor is a passive device on a circuit board that stores electrical energy in an electric field by virtue of accumulating electric charges on two close surfaces insulated from each other. This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded. The oldest capacitor companies were founded over 100 years ago. Most older companies were founded during the AM radio era, which includes the World War II era and post war era. As the de...

In this segment, we explore 10 new supercapacitor companies. Some of these firms manufacture graphene-based supercapacitors with increased conductivity and thermal performance. A few ...

In this segment, we explore 10 new supercapacitor companies. Some of these firms manufacture graphene-based supercapacitors with increased ...

The company specializes in manufacturing capacitors and other electronic components, serving various industries including aerospace, military, and industrial sectors.

This report lists the top Supercapacitors companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these ...

The company specializes in manufacturing capacitors and other electronic components, serving various industries including ...

Their product lineup includes cylindrical cells, high-power-density supercapacitor, electric double-layer capacitors, field-effect transistors, digital storage oscilloscopes, lithium ...

This article profiles the top 10 global supercapacitor manufacturers providing state of the art ultracapacitor cells and modules catering to varying energy, power density and form factor ...

Utilizing automated production and testing machines, along with a laboratory for assessing product performance and reliability, the company offers a selection of capacitors, including ...

Capacitor Manufacturers List: Global Leaders and Emerging Brands in 2025. Capacitors are essential passive components used in almost every modern electronic device ...

The region is home to companies such as Maxwell Technologies (a Tesla subsidiary), CAP-XX, Saft, and Supreme Power, which are focused on supplying advanced ...

This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded. The oldest capacitor companies were founded over 100 years ago. Most older ...
