Why should you choose sigenergy battery storage in Canberra?

Sigenergy battery storage in Canberra provides reliable whole-home backup and smart energy management, helping you use more of your solar.

What is the Big Canberra battery project?

The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery project includes: The large-scale battery storage system in Williamsdale will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability.

How will battery storage affect Canberra's electricity grid?

Battery storage will play an increasing role in Canberra's electricity grid as we move towards electrifying our city and achieving net zero emissions by 2045. Renewable energy such as wind and solar energy make electricity that large-scale batteries can store. Batteries help support the electricity grid when the sun and wind can't.

Does Solahart Canberra install batteries?

Solahart Canberra is a Certified Installer of Tesla Powerwall 2, SolarEdge, GoodWe and BYD Batteries. All are available through Solahart Canberra. How much energy does a battery store? The storage capacity of batteries vary by model.

Our all-in-one PPS (portable power station) is a completely containerised Off-Grid solar system, ready to go. The system is pre-wired and designed to suit your specific energy requirements.

With a strong commitment to sustainable energy practices, we provide comprehensive services to harness the power of batteries for efficient energy storage to Canberra and surrounding regions.
