What is Ring Alarm base station?

Ring Alarm Base Station makes sure you never let your guard down with a 24-hour backup battery. Subscribe to a Ring Home Standard or Premium Plan, sold separately, and Alarm Cellular Backup 1 will help keep your property protected even if the power and internet goes out at home. Arm and disarm your system, and more, with the Alarm Keypad.

Can I integrate ring cameras with the ring base station?

If you have a Ring Alarm security system, you can integrate Ring cameras with the Ring Base Station and the Ring Alarm system for enhanced security features and centralized monitoring. This integration allows for more advanced security configurations, but it is not mandatory for using Ring cameras.

Do ring base stations have Wi-Fi?

Cellular Connectivity: In addition to Wi-Fi connectivity, some Ring Base Stations have cellular backup capabilities. This means that they can connect to cellular networks in case of Wi-Fi failure, further enhancing the reliability of your security system.

What is a ring base station?

Central Hub for Ring Devices: The Ring Base Station serves as the central nervous system of your Ring security setup. It connects and manages all your Ring devices, acting as a communication hub that ensures seamless interaction between your cameras, doorbells, and sensors.
