Why is Hitachi energy investing 1.1 billion CZK in Brno?

Hitachi Energy is investing over 1.1 billion CZK (approximately \$47 million USD) to expand its High Voltage Products factory in Brno, Czech Republic, marking a significant step in the company's global strategy to support the clean energy transition.

Why is Hitachi launching a switchgear factory in Brno?

" As the global high-voltage switchgear market is expected to grow by 140 percent, reaching \$60 billion by 2050, the Brno facility is central to Hitachi Energy's strategy to help integrated renewables and improve grid reliability. For employees at the Brno factory, the announcement of the modernization and expansion is cause for excitement.

Why is ctpark Brno expanding?

The expansion at CTPark Brno aligns with this trend, enabling Hitachi Energy to scale production efficiently and meet the growing need for clean energy infrastructure. Beyond the initial investment project construction, CTP is planning an adjacent industrial campus at CTPark Brno, aimed at fostering a collaborative and dynamic work environment.

Can Brno lead in a net-zero future?

With this expansion, the Brno factory is poised to lead in shaping a Net-Zero future by creating jobs, supporting local communities, and providing the critical infrastructure needed to advance the world's energy system to be more sustainable, flexible, and secure.
