What are plastic foldable large containers (FLCS)?

Plastic foldable large containers (FLCs) ORBIS plastic FLCs are an efficient and sustainable alternative to steel, cardboard or wooden packaging. The foldable industrial bins with Standard footprints are easy to implement along different points of the supply chain and can be adapted to customer preferences.

How does 4fold reduce empty transport?

Okay, here's the thing: 40% of container transport on land is empty. At sea it's 20%. Hundreds of Megatons of CO2 emissions and 25Bn Euro in cost are wasted. This form of global inefficiency has to stop. Right now. We at 4FOLD reduce empty transport in the most significant way. With a foldable container that saves up to 37% in costs and CO2.

Are foldable containers a good idea?

Yes. It's that simple. It's true, all the big shipping lines and shippers have seen the full potential of our foldable containers. Cutting out inefficiency in the supply chain and hitting corporate sustainability goals as well. It's time for you to take responsibility.

Can a foldable container save CO2?

With a foldable container that saves up to 37% in costs and CO2. We are calling all shippers and shipping lines to take responsibility and start saving CO2 with 4FOLD now. Without action the shipping industry will account for 10% of the global CO2 emissions in 2050. This is much higher than the CO2 target under the Paris agreement.
