"In Timor-Leste, most people live in rural areas and rely on diesel for electricity, with access often cut-off due to natural disasters, low infrastructure quality and material aging. ...

EDTL has invited, through an international public tender, proposals for the development of the Project by independent power producer ("IPP"). Once selected, the IPP is expected to ...

DLA Piper advised Eletricidade de Timor-Leste on a PPA to develop Timor-Leste's first solar PV power plant and battery energy storage system.

Energy Dome has signed a contract with Alliant Energy for a 200MWh long-duration energy storage (LDES) project in Wisconsin, which the US utility considers the "first of many."

DLA Piper advised Eletricidade de Timor-Leste on a PPA to develop Timor-Leste's first solar PV power plant and battery energy ...

It is a great honour to represent the Government of Timor-Leste participating in this High-Level Dialogue on Energy to share our progress, challenges and commitments towards achieving ...

The country is rich in critical minerals like nickel, copper, and gold, which are increasingly important in global clean energy supply chains, especially for electric vehicles, ...

Standards Role in Timor Leste To reduce CO2 emissions Investments in energy efficiency and energy savings Helping reach 100% of electricity consumption from renewables sources (solar ...

This Perspective paper aims to elucidate the influence of Timor-Leste's improvements in electricity access on its national development outcomes and how these may ...

Researchers from MIT and Princeton University examined battery storage to determine the key drivers that impact its economic value, how that value might change with increasing ...

Efficient electrochemical energy storage in Timor-Leste
