Increasing climate change-caused natural disasters calls for mobile self-powered backup solutions for rescue and survival. However, existing portable solar systems rely on ...

Emergency care is powerfully aligned with the primary health care agenda as it provides first contact clinical care for those who are acutely ill or injured. Pre-hospital and ...

The Global Outbreak Alert and Response Network (GOARN) has been at the forefront of the global fight against health emergencies since its inception in April 2000. By ...

The prototype is the first solar-powered, reusable, versatile, safe, affordable, and energy-efficient emergency shelter integrating ...

The Health Emergency Information and Risk Assessment area of work provides authoritative information for public health decision-making in emergencies, with responsibility for identifying ...

The prototype is the first solar-powered, reusable, versatile, safe, affordable, and energy-efficient emergency shelter integrating passive design, energy storage, and combined ...

An advanced containerized energy storage system designed for maximum reliability and operational efficiency. This modular battery storage container delivers seamless power ...

Concurring with the advice unanimously expressed by the Committee during the meeting, the WHO Director-General determined that the upsurge of mpox 2024 continues to ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...
