Experience in EPC (Detailed engineering Design, Procurement & Construction) including utility grade high voltage grid connection ...

EcoDirect designs and supplies solar + battery projects in Fiji. Our team has the tools and experience to get your next project designed and delivered.

The U.S. Trade and Development Agency (USTDA) recently funded a new project to assess remote areas across Fiji as potential sites for solar-powered mini-grids paired with ...

In a first of its kind for the region, this 1MWp grid-connected solar farm with a 1.1MWh battery energy storage system helps provide a smooth supply of ...

Experience in EPC (Detailed engineering Design, Procurement & Construction) including utility grade high voltage grid connection substations & switching stations. The finalisation, ...

With support from KOICA, this project reduces diesel reliance and supports agriculture, tourism, and livelihoods-making Taveuni a national model for resilient island energy systems.

With plans to deploy 50MW of storage by 2027, Fiji's becoming the Switzerland of energy innovation - neutral in the fossil fuel wars, armed with killer battery tech. Upcoming ...

The U.S. Trade and Development Agency (USTDA) recently funded a new project to assess remote areas across Fiji as potential sites ...

The Fiji side energy storage power station project isn't just about technology--it's about resilience. By integrating smart storage, Fiji can reduce diesel dependence, stabilize its grid, ...

Creation of renewable energy zones (4x solar clusters, Western region and 1x hydro cluster in center of island) Transmission network will be developed to connect generation ...
