How do I choose a solar power company in Georgia?

Look for a solar power company experienced in Georgia installations so that you have the most energy-efficient solar power system in place for your home. Many companies offer flexible financing options, including power purchasing agreements (PPAs), to lighten the financial burden of solar panel installation.

Is Georgia a good place to install solar panels?

Georgia has consistently been in the SEIA Top 10 for solar photovoltaic installations for the past 10 years, and our state has one of the largest voluntary solar portfolios in the country.

Do all solar facilities belong to Georgia Power?

Not all solar facilities you may come across belong to Georgia Power. We have constructed and are operating 16 solar farms and additional demo facilities across the state of Georgia, many in partnership with military installations. The largest, at 128 MW of capacity, is located at Robins Air Force Base in Warner Robins, Georgia.

Where is Georgia's largest solar power plant located?

The largest, at 128 MW of capacity, is located at Robins Air Force Base in Warner Robins, Georgia. Other facilities add carbon-free energy to the grid and supply renewable energy in support of our Community Solar program. 1. North Georgia
