Are Chinese power inverters being used on solar panels?

U.S. officials have discovered undisclosed communication devices on Chinese-made power inverters that were being used on solar panels, Reuters reported today based on anonymous sources within the federal government. The inverters are devices separate from power sources like solar arrays or batteries.

Is Huawei still a global inverter company?

Huawei alone accounted for 29% of global shipments in 2022. While it exited the U.S. inverter market in 2019, it continues to supply other countries at scale. Philipp Schroeder, CEO of German solar developer 1Komma5, said his firm avoids Huawei products due to security risks.

Are Chinese solar power inverters Rogue?

CHINESE OFFICIALS CLAIMED BEHIND CLOSED DOORS PRC PLAYED ROLE IN US CYBERATTACKS: REPORT However, rogue communication devices not listed in product documents have been found in some Chinese solar power inverters by U.S. experts who strip down equipment hooked up to grids to check for security issues, the two people said.

Are Chinese-made solar inverters a security risk?

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication devices inside certain solar inverters.

U.S. officials have discovered undisclosed communication devices on Chinese-made power inverters that were being used on solar ...

It's not yet clear how many of these communication devices were found, nor the nature of the devices themselves - and the intent ...

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy ...

U.S. energy officials have intensified scrutiny of Chinese-manufactured components in renewable energy infrastructure after the identification of undocumented ...

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden ...

What Are Shipping Container Solar Systems? Understanding the Basics A shipping container solar system is a modular, portable power station built inside a standard steel ...

U.S. officials have discovered undisclosed communication devices on Chinese-made power inverters that were being used on solar panels, Reuters reported today based on ...

It's not yet clear how many of these communication devices were found, nor the nature of the devices themselves - and the intent behind the planting of these is unknown.

The European Solar Manufacturing Council estimates over 200 GW of European solar power capacity is linked to inverters made in China - equivalent to more than 200 nuclear ...

In March, researchers from Forescout Research's Vedere Labs uncovered vulnerabilities in solar power systems after analyzing six major inverter manufacturers, ...

Utility Products List covers all Utility Products, including inverters, energy storage, optimizers, controllers and other Utility Products photovoltaic-related product series.

Over the past nine months, undocumented communication devices, including cellular radios, have also been found in some batteries from multiple Chinese suppliers, one of ...
