What is the voltage in Albania?

Just like the rest of Europe, the voltage in Albania is 230 volts and the frequency is 50 Hz. Albania has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets.

What is the voltage and frequency of a power plug in Albania?

In Albania, the power plug sockets are of types C and F. The standard voltage is 230 V and the frequency is 50 Hz. Power plug adapter needed in Albania?

What if my devices are not compatible with the voltage in Albania?

However, if your devices use a different plug type or are not compatible with the voltage in Albania, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Albania is 230 V, and the standard frequency is 50 Hz.

Do I need a power adapter in Albania?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Albania, you will need a power adapter and/or a voltage converter/transformer.

Just like the rest of Europe, the voltage in Albania is 230 volts and the frequency is 50 Hz. Albania has standardized on type F sockets and plugs. Type C and type E plugs can ...

Albania uses a voltage of 220-230 volts, which is the same as many European countries. If your electronics are dual-voltage, you will not need ...

Do I Need A Power Adapter For Albania? Electricity in Albania - Voltage and Frequency Frequently Asked Questions All power sockets in Albania provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Albania if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country ...
