How much do solar panels cost in San Jose?

As of May 2024, the average solar panel system costs \$2.59/W including installation in San Jose, CA. For a 5 kW installation, this comes out to about \$12,951 before incentives, though prices range from \$11,008 to \$14,894. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in San Jose?

While a 5 kW system will only cost you \$12,951 in San Jose, CA, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in San Jose, CA?

How many solar companies are there in San Jose?

With 6,520 solar companies in the area and the median San Jose household size as 1,778 square feet, you should get a basic idea of how many options are at your disposal and what size solar system you'll need for your home.
