How much does electricity cost in Uruguay?

The electricity price for businesses is UYU 5.160 kWh or USD 0.132. These retail prices were collected in March 2025 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Uruguay with 150 other countries. Historical quarterly data, along with the latest update from September 2025 are available for download.

What is energy in Uruguay?

Energy in Uruguay describes energy and electricity production, consumption and import in Uruguay. As part of climate mitigation measures and an energy transformation, Uruguay has converted over 98% of its electrical grid to sustainable energy sources (primarily solar, wind, and hydro).

Which technology has the most electricity generated in Uruguay in 2024?

The technology with the largest share of electricity generated in Uruguay in 2024 was Hydro at 7.18TWh, up from 3.43TWh in 2023. Investment in clean energy in Uruguay was around \$28.00M in 2024. Which segments of the power sector are open to private participation?

How much energy does Uruguay have in 2024?

The top amount of capacity installed in Uruguay in 2024 was in Hydro at 1.54GW. The technology with the largest share of electricity generated in Uruguay in 2024 was Hydro at 7.18TWh, up from 3.43TWh in 2023. Investment in clean energy in Uruguay was around \$28.00M in 2024.

The modeled \$/kWh costs for 600-kW Li-ion energy storage systems vary from \$469/kWh (4-hour duration) to \$2,167/kWh (0.5-hour duration). The battery cost accounts for 41% of total system ...

Electricity price for households has slightly dropped (-1.4%) to stand at US\$20.2c/kWh. It is quite stable over the long run because of the ...

Uruguay did what most nations still call impossible: it built a power grid that runs almost entirely on renewables--at half the cost of fossil fuels.

The procurement of a household energy storage power station typically incurs significant financial outlay. The average price range lies between \$7,000 and \$15,000, ...
