Why is Ms altanshagai interested in power disruptions in Ulaanbaatar?

Ms. Altanshagai has an interest in the geopolitics of energy, climate financing, and the development economy in the Global South, especially in Mongolia. Power disruptions in Ulaanbaatar add more urgency to the government's existing focus on energy reforms.

What are the latest developments in the energy sector?

There are many ongoing developments in the energy sector, including building a solar power plant and an energy storage system in Gobi-Altai province, Indian interest in buying coking coal, a French deal in uranium mining, and a \$100 million loan from the Asian Development Bank for climate financing, which includes energy projects.

Will the energy sector change in 2024-2028?

According to Deputy Prime Minister Dorjkhand Togmid, the country has not had significant energy sector reforms since the 1980s. That is set to change: Four out of the 14 mega projects planned by the government in 2024-2028 are in the energy sector.
