Does your shipping container home use a lot of energy?

One of the most energy consuming processes affecting your shipping container home energy usage is the transfer of heat into and out of the building. Sometimes you want to purposefully move heat, and sometimes you want to slow its movement.

Can shipping containers be sold online?

If you are looking to sell a few shipping containers online, you can auction them using reseller platforms and websites.

How can I sell a container?

To sell a container, consider using images, videos, and other visual assets to show off your containers on a website. If possible, use a self-service e-commerce platform. This will allow buyers to easily buy or rent containers using your website. Keep in mind that buyers today want a quick and easy purchase, and "going digital" with your container sales is likely to pay off into the future.

How can I start selling shipping containers?

To start selling shipping containers, consider setting up your own shipping container business. You can begin small and work to grow your business over time. If you're committed to selling shipping containers long-term, this is the best option.
