Will Huawei's battery energy storage system be discontinued in Britain?

Exclusive Huawei's product portfolio in Britain is about to shrink again with suppliers informed that its battery energy storage systems (BESS) are to be discontinued locally by the end of 2025.

Does Huawei still make money in the UK?

This means Huawei now relies on wearable tech, PCs, tablets, and audio products in the UK. As The Register revealed this week, the company's revenues have plunged in Britain from a peak of $\pounds 1.28$ billion (\$1.7 billion) in calendar 2018 to $\pounds 188$ million (\$159.6 million) in 2024.

Is Huawei promoting alternative brands?

Suppliers were informed on August 22 and some told us they are already promoting alternative brands. Huawei sells a range of kit in solar energy storage systems under the LUNA brand, including modules, bundles, and inverters. Huawei refused to comment when asked to officially confirm its plans.
