

Title: Huawei flow battery module

Generated on: 2026-07-14 09:57:26

Copyright (C) 2026 EU-BESS. All rights reserved.

In addition to the superior battery chemistry, Huawei employs intelligent energy management systems that optimize the performance of energy storage modules. These ...

Products Details Quick and easy installation: 50 kg module, can be installed by 2 people. Perfectly compatible with Huawei inverters. Integrated energy manager: each battery module is charged ...

The Huawei LUNA2000-5-E0 is a 5.0 kWh LiFePO₄ battery module for the LUNA2000 smart-string storage family, designed for indoor or outdoor installation with IP66 protection.

*1 Test conditions: 100% depth of discharge (DoD), 0.2C rate charge & discharge at 25°C, at the beginning of service life. *2 CAN is for communication between ESSs in parallel ...

The design has been thought out with our installers in mind: no communication or power cables are required, simply plugging in the ...

Designed for our installers, no communication or power cable is required, just dock the battery modules. Intelligent ports detection with temperature sensors inside saves your ...

Huawei 5kWh battery module, expandable up to 15kWh and compatible with Huawei single-phase and three-phase inverters, with a 100% depth of discharge.

The design has been thought out with our installers in mind: no communication or power cables are required, simply plugging in the battery modules. Intelligent port detection with integrated ...

The LUNA2000-5KWH-E0 battery module provides flexible energy storage, with 100% depth of discharge and energy level optimization on each individual module. Lithium Iron Phosphate ...

The built-in BMU manages battery balance, measures common data such as battery voltage and temperature, generates alarms, and implements CAN communication between battery modules.

The Huawei LUNA2000-7-E1 Battery Module is an advanced technological module for intelligent energy storage, offering numerous innovative solutions. The Huawei Smart String energy ...

In addition to the superior battery chemistry, Huawei employs intelligent energy management systems that optimize the performance of ...
