HUAWEI and FARIA Renewables are proud to announce a strategic partnership aimed at advancing the development and operation of Battery Energy Storage System (BESS) ...

The Seli Project entails the construction of a 309 MW photovoltaic unit with an integrated lithium-ion battery energy storage system. This project aims to optimise electricity generation and grid ...

Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW and with integrated energy storage units.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Greek power utility PPC SA (ATH:PPC) has launched the construction of a pilot project set to create a complex integrating solar and electrochemical energy storage capacity ...

Greek utility PPC Group has officially broken ground on a hybrid solar and battery energy storage system (BESS) on the island of Astypalea, aiming to cover more than 80% of local electricity ...

A draft ministerial decision envisages the installation of 3.55 GW of standalone battery energy storage systems which will be granted priority connection to the transmission or ...

Greek power utility PPC SA (ATH:PPC) has launched the construction of a pilot project set to create a complex integrating solar and ...

The European Commission has approved a EUR1 billion (US\$1.1 billion) state aid measure for Greece to support two solar-plus-storage projects.

Following a brief consultation in late February, the Greek government has unveiled a new battery storage
