What is the best incentive for solar storage?

The best incentive for storage is the federal investment tax credit (ITC). The exact same ITC that provides a 30 percent credit on the cost of your solar system provides that same benefit to storage systems under certain conditions.

Are there state-level incentives for solar energy storage?

To date, state-level performance incentives for storage have typically been added to solar incentives. Perhaps the best-known state-level storage incentive in the US is California's Self-Generation Incentive Program (SGIP). SGIP provides a dollar per kilowatt (\$/kW) rebate for the energy storage installed.

Does Massachusetts have a solar storage adder?

But act fast-this incentive is currently only authorized through the 2022 tax year and there's a cap on the level of funding available each year. Massachusetts offers a storage adder under the commonwealth's solar-focused SMART incentive program.

Does Green Mountain Power offer energy storage?

In fact, Green Mountain Power offers a few different programs for energy storage: a bring-your-own-device program that provides a rebate for whatever battery you want to install, as well as a Tesla Powerwall Pilot program. Did you find this page helpful?
