Solar, with support from hydro and battery storage, is likely to be the primary route for renewable electrification and rapid growth of the Nepalese energy system.

The World Bank is inviting consultants to submit proposals for a technical study on a 350 MW to 400 MW solar project with battery energy storage in Tunisia. The deadline for applications is ...

SunContainer Innovations - Imagine a city where streetlights dim during peak hours while hospitals rely on diesel generators. This isn't fiction - Kathmandu's power demand grew 18% ...

Solar, with support from hydro and battery storage, is likely to be the primary route for renewable electrification and rapid growth of the ...

In a recent article published in Clean Energy journal, entitled "100% renewable energy with pumped-hydro-energy storage in Nepal", we ...

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said Gham Power.

Take Nepal's first solar-storage PPA signed last week - a 25-year deal guaranteeing 14% IRR through monsoon/winter price arbitrage. As Asian Development Bank's energy lead Priya ...

This distributed solar project aims to reduce dependency on grid electricity and promote renewable energy adoption in urban areas. The project includes residential, commercial, and ...

In a recent article published in Clean Energy journal, entitled "100% renewable energy with pumped-hydro-energy storage in Nepal", we outline how the country can meet its ...

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This ...
