Huntly Power Station will soon do more than generate electricity; it will also store it in a 100 MW grid scale battery.

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

The company confirmed it had kicked off construction of the BESS on 5 June. It will be located at Huntly Power Station in Waikato, a region that is home to the country's largest ...

Located at Ruakaka in the country's North Island, the 100-megawatt (MW) BESS will improve the stability of the national grid, as intermittent renewable power generation ...

Paris, 19 September 2024 - Saft, a subsidiary of TotalEnergies, has won a major contract to deliver a turnkey, utility-scale battery energy storage system (BESS) for Genesis Energy ...

Confirmed yesterday (19 September), the 2-hour duration BESS will be installed at Huntly Power Station on the country's North ...

The Huntly BESS will store enough energy to power up to 60,000 homes for two hours during peak demand, reducing reliance on fossil fuels and helping stabilise the grid.

Confirmed yesterday (19 September), the 2-hour duration BESS will be installed at Huntly Power Station on the country's North Island, owned by Genesis, a listed New Zealand ...

Fifty-six battery units begin arriving for Auckland's first grid-scale battery at Glenbrook. New battery energy storage system (BESS) will discharge ...

Paris, 19 September 2024 - Saft, a subsidiary of TotalEnergies, has won a major contract to deliver a turnkey, utility-scale battery energy storage ...
