Photonix Nordic, established in 1995, specializes in smart solar panels, building large solar farms globally, including successful projects in Sweden and Brazil.

Smart local energy systems (SLEs) can advance the transition towards sustainable energy. However, their multi-sector and multi-stakeholder composition demands advanced planning ...

Discover how Helsinki's 16 kW solar system urban transit hubs slash grid reliance by 70%--featuring heated seats, real-time updates, and USB ports. Winner of the 2025 Nordic ...

We are a Danish solar energy company headquartered in Copenhagen. We develop, construct, and operate utility-scale solar parks across Europe on our mission to make everyone benefit ...

In February the Norwegian Government has proposed a major package to make electricity more affordable and predictable for households, while maintaining control over national power ...

A smart energy system is a cost-effective, sustainable and secure energy system in which renewable energy production, infrastructures and consumption are integrated and coordinated ...

Our goal is to support the green energy transition through innovative, scalable solutions that help you manage solar and battery systems efficiently while contributing to grid flexibility. Nordic ...

During the recent surge in solar PV installations, the Nordic countries - Sweden, Norway, Finland, and Denmark - have increasingly embraced solar PV technology, defying their northern ...

Read about how the Nordics integrate solar energy into smart cities and create sustainable urban environments. We use Malm's Hyllie district as a case study.

Discover how Helsinki's 16 kW solar system urban transit hubs slash grid reliance by 70%--featuring heated seats, real-time updates, and USB ...

Discover the Nordic grid system's intricacies and seize solar prospects across Norway, Sweden, Denmark, and Finland in this comprehensive guide.

Read about how the Nordics integrate solar energy into smart cities and create sustainable urban environments. We use Malm's Hyllie ...
