Is North Macedonia a burgeoning market for solar energy production?

This shift underscores North Macedonia's potential as a burgeoning market for solar energy production, particularly as the country aims to meet its ambitious renewable energy targets. The regulatory landscape for renewable energy in North Macedonia has been markedly transformed with recent changes adopted in April 2023.

What is the future of solar energy investment in North Macedonia?

With the government targeting a 38% share of renewables in gross final energy consumption by 2030 and proposing substantial investments totaling approximately US\$1.7 billion by 2030, the future of solar energy investment in North Macedonia appears promising and critical for the nation's energy transition.

What is North Macedonia doing to boost energy investment?

North Macedonia has drafted the first laws and agreements on strategic investments in the energy sector, a model the country is using to facilitate and speed up investments in renewable electricity plants. The first four projects are solar power plants Pehcevo and Stipion, cogeneration facility Skopje, and a photovoltaic plant with gas engines.

Does Macedonia have a solar energy plan?

Historically, the country's journey toward solar energy began with the National Energy and Climate Plan (NECP) established in 2022, which set clear targets for renewable energy consumption. Macedonia - new player in solar industry.

This report, "North Macedonia Renewable Energy Market - 2025 Update", has been produced by Invest In Network as part of the Energy Week Western Balkans 2025 framework.

Discover how EcoSync and KTM Energy Solutions delivered a 20MW utility-scale solar power project in Macedonia using advanced 550W double-glass panels. Boosting clean ...

Use of renewable energy in North Macedonia, particularly solar power, is paving the way for a sustainable future as it generated ...

Discover how EcoSync and KTM Energy Solutions delivered a 20MW utility-scale solar power project in Macedonia using advanced ...
