We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The STS can be installed in coastal and offshore areas with high salinity All electrical components are perfectly protected against overcurrent with Surge protection devices and Anti-explosion ...

This could power a tiny home or other small off-grid setup like a hunting cabin. For me though, I'll start with just keeping my electric tractors and motorcycles charged!

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

The integrated containerized photovoltaic inverter station centralizes the key equipment required for grid-connected solar power systems -- including AC/DC distribution, inverters, monitoring, ...

Large-scale, grid-connected or standalone systems for high-demand applications. Ideal for utility-grade resilience hubs and remote communities. Supports microgrid portfolios with multiple ...

This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar
