What is an outdoor macro base station?

This outdoor macro base station supports both GSM-R and LTE -- the ideal solution for railways that want to prepare for evolution to an LTE broadband network. One of the most compact outdoor macro base stations in the industry, it features a large, scalable capacity and multi-mode applications that meet the requirements of long-distance railways.

What are the different types of 5G base stations?

Micro Cell: All-in-one, integrated Outdoor 5G base station can be deployed quickly to provide coverage for 5G-enabled devices. Mini Macro: Macro 5G RRU with high PA (20 to 40 watt) and Multi RAT technology offers industry-leading technology for wide area coverage.

What is a Nova base station?

The Nova base station makes use of the current LTE transmission resources to reduce the operator's investment with low-cost, enhanced indoor or outdoor coverage. This solution can be used widely by telecom operators, broadband operators, and enterprises to promote the user experience in residential and commercial settings.

Soetek's 5G base station power system, with its highly integrated design, injects stable and robust vitality into 5G base stations ...

The Switch Mode Power Supply is highly integrated outdoor 5G micro base station power supply system, it combines AC input power distribution, lightning protection, switching rectification, ...

OCTEON Fusion&#174; CNF73xx integrated baseband processors address a growing number of advanced LTE and 3G base station market segments. Typical applications include outdoor ...

Hytera's small one-box base station product has an integrated design with small size and easy installation, which can greatly reduce the customer's CAPEX and OPEX.

Unity(TM) LTE Integrated Base Station is an advanced outdoor LTE compact product that operates in FDD mode. This eNB provides users with high-speed broadband wireless ...

AirHarmony 1000 is a compact and versatile LTE Micro base station that provides the outdoor Micro layer of

a Heterogeneous LTE network deployment (HetNet).

Ideal for micro-pops with the the enhancement of LTE, the Baicells Nova 227 Outdoor Base Station is a high performance outdoor micro base station based on TD-LTE technology and ...

Soetek's 5G base station power system, with its highly integrated design, injects stable and robust vitality into 5G base stations worldwide, supporting the creation of a truly ...

Outdoor Integrated System 5G communication has the characteristics of poor high-frequency transmission characteristics, large network capacity requirements, and large network coverage ...

Nybsys Micro 4G/5G RUs offer the perfect solution for All-in-One (AIO) outdoor small cells that can swiftly establish a cellular network at any location and at any time. Installation is very ...

This compact base station integrates the 5G baseband module and radio module, pre-installed the SageRAN's Engine(TM) 5G L2 L3 software, to provide a high performing 5G wireless access ...

The Switch Mode Power Supply is highly integrated outdoor 5G micro base station power supply system, it combines AC input power distribution, ...
