Wisconsin's first large-scale energy storage project, the Paris Solar-Battery Park in Kenosha County, is now providing power to the grid. ...

The 110-megawatt (MW) battery portion of the Paris Solar-Battery Park went online this month, while the 200-MW solar portion of the project went into service in December.

The battery storage portion of Paris Solar-Battery Park entered commercial operations this month, six months after the 200-MW solar farm built next door.

We Energies announced on Tuesday that the Paris Solar-Battery Park in Kenosha County has started serving customers on the energy grid. While the 200-megawatt solar ...

Wisconsin's first large-scale energy storage project, the Paris Solar-Battery Park in Kenosha County, is now providing power to the grid. It's comprised of around 12,000 lithium ...

Wisconsin's first large-scale energy storage project, the Paris Solar-Battery Park in Kenosha County, is now providing power to the grid. It's comprised of around 12,000 lithium-ion...

Officials say the storage facility is made up of batteries that are capable of powering over 130,000 homes for hours. They add that on sunny days, the batteries will store excess power and...

The Paris Solar-Battery Park in Kenosha County combines a massive solar farm with a powerful battery storage system to make renewable energy available day and night.

The first large-scale battery energy storage system (BESS) in Wisconsin, a 110MW facility known as the Paris Solar-Battery Park, is now operational. This system is paired with ...

The 110-megawatt (MW) battery portion of the Paris Solar-Battery Park went online this month, while the 200-MW solar portion of ...
