-----

Despite the additional capital expenditure required for batteries, BNEF expects a solar-plus-four-hour battery-based energy storage project to become cost-competitive compared to a new gas ...

The Power Development Plan (PDP) 2023-2050 serves as a comprehensive guide for industry participants, offering a detailed view of the Philippine electric power industry highlights, outlook ...

DNV has supported SN Aboitiz Power Group in developing a 24MW/32MWh Battery Energy Storage System at the Magat Hydroelectric Power Plant, enhancing grid ...

As Asia's energy landscape undergoes rapid transformation, the integration of battery energy storage into thermal generation assets is gaining traction. Aboitiz Power Corporation, one of ...

The summit, hosted by the Philippine Solar and Storage Energy Alliance (PSSEA), gathered policymakers, developers, and investors from across ASEAN to discuss ESS as a ...

The summit, hosted by the Philippine Solar and Storage Energy Alliance (PSSEA), gathered policymakers, developers, and investors from ...

The study uses linear programming optimization methods to explore scenarios that can mitigate climate change by increasing solar and wind power use, reducing coal usage, ...

In August 2019, the DOE issued Department Circular No. DC2019-08-0012 entitled, "Providing a Framework for Energy Storage System in the Electric Power Industry", ...

The Philippines is betting on battery energy storage systems (BESS) to achieve its ambitious renewable energy (RE) targets and build a more sustainable energy future.

As Asia's energy landscape undergoes rapid transformation, the integration of battery energy storage into thermal generation assets is gaining ...
