How much are Chinese solar modules worth?

Prices for Chinese solar modules have reached record lows, according to the latest data from OPIS. The benchmark assessment for TOPCon modules from China has fallen to \$0.100 per watt, a decline of \$0.005 per watt compared to the previous week. Similarly, Mono PERC module prices have also dropped by \$0.005 per watt, now standing at \$0.090 per watt.

How much do Topcon solar modules cost in China?

The current tradable indications for TOPCon modules are being reported at \$0.10 per watt Free-on-Board (FOB) China. As the market struggles with low demand, these new record low prices highlight the ongoing challenges faced by Chinese solar module makers.

Are solar module prices on a 'consistent uptrend' in China?

Taiwanese research institute EnergyTrend has reported that solar module prices in China are on a "consistent uptrend." Its latest report said tunnel oxide passivated contact (TOPCon) module prices "rebounded sharply" and were widely quoted between CNY 0.70 (\$0.097)/W and CNY 0.75/W, reinforcing "bullish" market sentiment.

How much will PV modules cost in 2025?

On 11 March 2025, the results of the China Datang Group's 2025-2026 PV module framework purchase tender were announced, with the spot price of n-type modules increasing from RMB0.7/W (US\$0.097/W) to RMB0.73/W (US\$0.1/W), and some modules priced as high as RMB0.75/W (US\$0.11/W).

The Chinese PV industry has witnessed a wave of collective price hikes across the supply chain, from wafers, solar cells, to modules, with prices rising to varying degrees.

Over the long term, the major factor driving the global solar PV market is the declining cost of solar PV module prices. This, in turn, is ...

The price spread between Mono PERC and TOPCon modules has narrowed due to the reduced supply of Mono PERC modules and the lower production cost of TOPCon ...

Average spot price for solar photovoltaic modules worldwide from 2016 to 2024 (in U.S. dollars per watt-peak) You need a Statista Account for unlimited access Immediate ...

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

Taiwan-based research firm EnergyTrend says market optimism in China has driven up solar module prices, while production of ...

Prices for Chinese solar modules have reached record lows, according to the latest data from OPIS. The benchmark assessment for ...

Discover data on Photovoltaic: Price in China. Explore expert forecasts and historical data on economic indicators across 195+ countries.

"Solar module pricing is being impacted by a broad-based increase in raw material costs, not just polysilicon," said Osman Mohammad Maud, Head of LONGi Pakistan & ...

Prices for Chinese solar modules have reached record lows, according to the latest data from OPIS. The benchmark assessment for TOPCon modules from China has fallen to ...

The Chinese PV industry has witnessed a wave of collective price hikes across the supply chain, from wafers, solar cells, to modules, ...

MSP difference 9.5 - 12.8 EURct/Wp for "fully-local" manufactured TOPCon PV Module. In Southeast Asia similar, in India slightly higher MSP.
