What is the cost of solar roof tiles?

Solar roof tiles typically cost up to three times as much as solar panels. For a 3KW system, you could be looking at up to \$10,000 to \$12,000. The Energy Saving Trust estimates that solar roof tiles can earn a homeowner around \$7250 in FIT payments over 25 years, so you could have a long wait to recoup your costs.

How much does tile cost per square meter?

Basically, tilers charge based on a per square meter rate. This means that the type and size of the tiles are their basis for determining their price. In general, you may have to pay anywhere between \$35 to \$150 per square meter. The more labor-intensive the tiles are, the more you have to pay. How much waste should I figure for tile?

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.
