With facilities planned across both Ras Bufontas and Umm Alhoul Free Zones, the partnership will leverage Qatar's strategic ...

With the addition of the new Dukhan Solar Power Plant, QatarEnergy's portfolio of solar power projects in Qatar will reach a capacity of about 4,000 megawatts by the year 2030. ...

Unit manufacturers must provide a unit certificate for all generation units (i.e., combined heat and power units, PV inverters, etc.) that are connected to the distribution or transmission grid.

With facilities planned across both Ras Bufontas and Umm Alhoul Free Zones, the partnership will leverage Qatar's strategic connectivity and robust infrastructure to serve both ...

Samsung C& T E& C Group has been awarded the contract for Qatar's largest solar power project, underscoring its growing leadership in renewable energy infrastructure.

In Qatar's context, where solar installations feed into both central and local distribution grids, these inverter features stabilise grid voltage and frequency even during ...

The low-carbon plant will produce next-generation bioproducts, while the advanced digital infrastructure project will support ...

Sungrow signed a contract recently with Samsung C& T's Engineering & Construction Group to supply its MV-integrated 1500V string inverter solution SG320HX to an ...

Qatar Free Zones Authority (QFZ) and Samsung C& T Corporation signed a landmark strategic agreement, reaffirming their long-term partnership for a series of high ...

Located 80 kilometers west of the capital Doha, the Dukhan Solar Plant will utilize advanced solar tracking
