Developer and IPP R.Power has received EUR15 million (US\$15.6 million) in non-reimbursable state financing to build a 2-hour BESS project in Romania.

BESSs, or Battery Energy Storage Systems, are often housed in shipping container-type portable units, which offer mobility, modularity, and weather-resistant properties.

"As other European BESS markets become increasingly saturated, Romania stands out," said Evangelos Gazis, Aurora's head of Southeastern Europe, adding that the ...

What is a Bess system?At the heart of WEG's BESS solution is an advanced energy control and management solution. This sophisticated system coordinates different operation modes, ...
