Trusted by architects for more than a decade, Solarban® 70 glass (formerly Solarban® 70XL), a technological breakthrough in solar control low-e glass, offers a balanced combination of ...

Anchored by flagship products like Solarban® solar-control low-e glass and Starphire Ultra-Clear® low-iron glass, Vitro Architectural Glass manufactures trusted and proven glass ...

Solarban® R100 glass is a neutral-reflective, low-e glass that provides significant improvements in solar performance compared to competing products in the same architectural ...

Folding glass walls have been a signature product of Solar Innovations® for over 15 years. These systems offer a flexible and customizable opening that can be incorporated into any residential ...

The Solarvolt BIPV glass system replaces traditional facade cladding materials and enhances commercial building exteriors by providing sunshading, overhead glazing, CO2-free power ...

Thanks to its transparency and various finishes, photovoltaic glass fits perfectly into contemporary architectural designs without compromising energy performance.

Solarvolt (TM) building-integrated photovoltaic glass systems by Vitro Architectural Glass can be tailored to your project's unique design and performance needs.

Crafted with heat-treated safety glass, our photovoltaic glass provides the same thermal and sound insulation as traditional options, flooding spaces with natural light. Perfect for facades, ...

For this project, we provided glass solutions, including: Interior Glass: Custom-fitted with Dorma hardware. Tower Glass: 1/2" Clear Tempered glass, enhancing both durability and aesthetics. ...
