Each distinct shipping guide in this document refers to the regulatory requirements for a specific lithium cell/battery type, configuration, and size. In this way, a shipper will easily find the ...

What is a shipper's declaration for lithium ion batteries? By signing the Shipper's Declaration, the shipper is making a legal statement that all the applicable provisions of the DGR have been ...

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather ...

This guide zeroes in on lithium-ion and lithium-metal batteries, the two chemistries that face the tightest controls. The rules are especially strict for air transport due to the ...

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather-resistant shell. Our systems can be deployed ...

When shipping or importing lithium batteries, including those contained in or packed with devices and equipment, packaging requirements must be met and package contents must be declared ...

Recommendation - On-Deck Stowage Only: It is recommended that all containers with lithium-ion batteries, especially UN 3480 and UN 3536, be stowed on deck only.

This publication directs readers to scenario-based shipping guides that outline the requirements to ship packages of lithium cells and batteries in various configurations.

Recommendations in this document are based on Woods Hole Oceanographic Institution, safety document SG-10, and UNOLS lithium battery safety circular from May 2012.

Learn the essential regulations for shipping lithium-ion batteries (UN3480 & UN3481) to ensure safety and
