In conjunction with Orange and Rockland Utilities (O& R), a wholly owned subsidiary of Consolidated Edison (ConEd), Sunrun has successfully activated the largest ...

In September 2023, LPO announced the closing of a \$3 billion partial loan guarantee to Sunnova Energy Corporation's Project Hestia to make distributed energy ...

Virtual Power Plants (VPPs) are a network of small energy generation sites--think hundreds of homes with rooftop solar--that are combined with storage technologies like home ...

When you install solar panels with a battery at your home or business, you essentially create a miniature power plant. As solar became more popular nationwide, a big ...

California-based clean energy developer Sunrun has activated a residential solar virtual power plant (VPP) program in New York's Orange and Rockland Utilities (O& R) service ...

What is a Virtual Power Plant (VPP)? A VPP is a network of distributed energy resources (DERs), such as residential solar arrays and battery storage systems, that are ...

During the summer of 2024, Orange and Rockland Utilities (O& R) and Sunrun, a home solar panel and battery storage company, successfully launched New York's largest ...

California-based clean energy developer Sunrun has activated a residential solar virtual power plant (VPP) program in New York's ...

Under this program, Sunrun synchronizes the discharging of the participating batteries to deliver stored solar power to reduce stress on the electric grid during times of peak ...

Sunrun and Orange & Rockland Utilities have activated New York's largest residential virtual power plant, integrating more than 300 solar-plus-storage systems to ...
