Package wastewater treatment plants that are designed and built by Idro Group are characterized by being mobile, compact and therefore easily transportable.

Floating solar farms are revolutionizing clean energy by utilizing water surfaces to generate power efficiently. Explore benefits, challenges, and future trends.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Package wastewater treatment plants that are designed and built by Idro Group are characterized by being mobile, compact and therefore easily ...

Case Study: Asmara's Solar-Plus-Storage Triumph In 2024, a pilot project achieved 92% renewable penetration in off-grid communities--a 300% improvement over ...

The 15kW photovoltaic water lifting system is a system that uses solar photovoltaic power generation technology to drive water pumps to lift water. The system mainly consists of ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

The micro solar power plant, inventors say, is handy in case of disasters and for refugees. The same Turkish company is developing a ...

The micro solar power plant, inventors say, is handy in case of disasters and for refugees. The same Turkish company is developing a portable hydropower turbine of up to 1 ...

Water plant uses Asmara folding container 15kW
