How many wind energy projects are there in Morocco?

The installed capacity 2014 was 750 MW. According to data from Morocco's energy ministry, a total of 220 MW of private wind energy projects have been built until the end of 2016. Another 120 MW are to go online soon at the Khalladi wind farm in the vicinity of Tangiers, northern Morocco.

Could wind power be a major contributor to Morocco's electricity sector?

Wind power could be a major contributor in the electricity sector of Morocco. According to data presented by minister Amara in Madrid in 2015, the country's onshore potential is estimated at 25 GW, of which 6 GW could be installed by 2030.

Where can I buy a 120 MW wind farm in Morocco?

Another 120 MW are to go online soon at the Khalladi wind farm in the vicinity of Tangiers, northern Morocco. The European Bank for Reconstruction and Development (EBRD) and Banque Marocaine du Commerce Extérieur (BMCE) have announced they will provide a financing package of EUR 126 million (USD 133.3m) for the development of the project.

What is the average wind speed in Morocco?

The average wind speed is 5.3 metres per second (m/s) at more than 90% of the country's territory, according to the wind atlas, developed by the Moroccan Renewable Energy Development Center (CDER).

Morocco's geography is a wind enthusiast's dream. The northern regions of Tangier and Tetouan boast average wind speeds of 8-11 meters per second (m/s), while southern ...

Two flagship projects explain this progress: the commissioning of the Aftissat II park (200 MW) and the Boujdour park (318 MW), two achievements that position Morocco at ...

In terms of wind power development, Morocco enjoys quite favourable wind resource patterns, both in the northern part of the country near Tanger and to the west where certain regions ...

Rabat - Wind energy is becoming the driving force behind Morocco's electricity mix. It pushed renewable production to record levels and steadily reducing dependence on fossil ...

The results identify three locations near the cities of Dakhla, Boujdour, and Essaouira that would recoup their
