Are battery energy storage systems safe aboard ships?

In recent months, Gard has received numerous inquiries about the safe transportation of battery energy storage systems (BESS) aboard ships. This article addresses some of the key risks, regulatory requirements, and recommendations for shipping such cargo.

What are energy storage systems (ESS)?

According to the International Energy Agency, energy storage systems (ESS) will play a key role in the transition to clean energy. Sometimes referred to as "energy storage cabinets" or "megapacks", ESS consist of groups of devices that are assembled together as one unit and that can store large amounts of energy.

What is the UN number for lithium battery energy storage?

Since storage equipment has lithium-ion battery inside,so most people assume the PSN shall be Lithium-ion batteries contained in equipment and the UN number shall be UN3481. However,with the development of lithium battery energy storage,more and more energy storage devices are being developed and applied.

Do I need a minimum SOC during transportation?

A minimal SoC is therefore recommended during transportation. Although most BESS have an inbuilt battery management and cooling system,thermal runaway events can occur. Should such an event happen,most units are designed to vent from the top.

The ZBC range of battery energy storage systems come in 10 feet and 20 feet high cube containers. These containers are designed to meet the requirements for off and on-grid ...

Planning a solar factory in Sudan? Master the critical logistics from Port Sudan customs to inland transport. Our expert guide helps you avoid costly delays.

Lithium battery energy storage containers (UN3536, Class 9) must be packaged with shockproof, moisture-resistant, and abrasion ...

Lithium battery energy storage containers (UN3536, Class 9) must be packaged with shockproof, moisture-resistant, and abrasion-resistant materials to prevent damage ...

In conclusion, transportation of container energy storage is a complex process that requires careful
