Which power stations are in Syria?

This article lists all power stations in Syria. ^ &quot;Aleppo Thermal Power Plant Syria - GEO&quot;,. Global Energy Observatory. ^ &quot;Al Nasryeh (Nasserieh) OCGT Power Plant Syria - GEO&quot;,. Global Energy Observatory. ^ &quot;Al-Zara Thermal Power Plant Syria - GEO&quot;,. Global Energy Observatory. ^ &quot;Latakia Power Plant Syria - GEO&quot;,. Prime Ministry of Syria.

What type of energy is used in Syria?

Energy in Syria is mostly based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. There is high reliance on fossil fuels for energy in Syria, and electricity demand is projected to increase by 2030, especially for industry activity such as automation.

What if Syria doesn't have reliable energy supplies?

The lack of reliable energy supplies is a major concern for Syrian citizens and its new government, making it a key point of leverage. Qatar and T&#252;rkiye have stepped in to provide short-term assistance. The two states have provided two floating power stations, while T&#252;rkiye is also connecting its grid to Syria.

Why does Syria have a low electricity supply?

The war has seen a drop in electricity generation capacity from 8 500 Megawatts to just 3 500, primarily due to the destruction of key power plants including Mahardah, Aleppo and Zayzoun. The lack of reliable energy supplies is a major concern for Syrian citizens and its new government. Syria's oil and gas sector is in an even worse state.
