How many renewable power plants will Bulgaria have in 2024?

Bulgaria will add over 2,500 MW of installed renewable power capacity by the end of 2024 through the installation of 700 MW of wind farms, 1,600 MW of solar parks, and 219 MW of biomass-fired power plants. In Bulgaria, the National Electric Company (NEK) owns 15 conventional hydro and pumped-storage plants.

What is the main source of electricity in Bulgaria in 2022?

Coal energy was the main source of electricity production in Bulgaria in 2022. It accounted for over 45 percent of total electricity generation. Nuclear energy ranked second, making up 35 percent of total production.

When was the first nuclear power plant built in Bulgaria?

Bulgaria's first nuclear power plant was launched in Kozloduy (KNPP) in 1974. Over the years, six units were completed, making KNPP one of the largest nuclear power plants in the region, with the installed capacity of units 5 & 6 of 2,000 MW. In the 1980s, a new nuclear plant at Belene was approved for construction.

When were thermal power plants encouraged in Bulgaria?

Thermal power plants were encouraged in Bulgaria in the early 2000s as Kozloduy NPP units were being closed.

According to him, Bulgaria has the potential not only to be the first in Europe to have AP1000 units built, but also to become a hub for ...

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in ...

With a capacity of 113 MW and an annual production of 177 GWh, Tsenovo Solar Park in Northern Bulgaria has become the largest power plant in Enefy's portfolio to date.

Bulgaria's energy generation includes nuclear energy, solid fuels, such as lignite, as well as small quantities of gas. The role of renewable energy sources (wind, solar, biomass, ...

Sigenergy, in partnership with the leading Bulgarian energy company Trakia MT, has successfully completed a 20 MWh utility-scale co-located project in Malko Tarnovo, ...

14 October 2025 - Renalfa IPP built a 65 MW battery energy storage system in Tenevo within a hybrid
